## UNITED STATES FOOD OFFER TO THE ALBANIAN PEOPLE

### REJECTED BY THE MOSCOW AND TIRANA CLIQUES

The U.S. again showed its deep friendship for the Albanian people when on 4 March President Eisenhower in a special speech recalled the historic friendship between the Albanian and American peoples and then offered on behalf of the American people \$850,000 worth of foodstuffs plus transportation to be distributed by the International Red Cross among needy Albanian people regardless of religious or political beliefs.

On 6 March Moscow first and then the Albanian Telegraphic Agency announced that the Albanian regime refused this offer of the American people as being "hypocritical" and because Albania had sufficient food stuffs!

Once again as in 1951 when the NCEA food offer was ignored, the Hoxha-Shehu clique has shown callous disregard for the thousands of Albanians close to starvation. The NCEA and Albanians throughout the world have been shocked by the Tirana clique's rejection and the bald-face manner in which it was dictated by Moscow. The Tirana regime admitted to the world that it is so doubtful of the allegiance of its own people that it cannot permit them even this small contact with the International Red Cross, an organization renowned for its neutrality and humanitarianism. Moscow admitted that it is jealous and fearful of the American power and generosity and that Albania is its lowliest stepchild among the satellites because although East Germany, Hungary and Czechoslovakia were allowed to accept the food offers, Albania was not!

Albanians! The Tirana clique who feed their own bellies at the leader stores claim that there is enough food for all Albanians. Very well, then let them prove it! Let them distribute food at the prices you can afford! Let them abolish ration cards together with forced food quotas, forced state loans and excessive taxes! Albanians! The food offer of the American people is still open! Use every means within your power to make known the fact that the Albanian people themselves accept this offer and demand that the Tirana regime carry out the will of the people!
